Picture the scene, its 1983 and you are Toyota and enthused by the idea of entering the highly competitive luxury car market; a market driven by history and brand prestige. A plucky dream that would more likely than not end in tears. Fortunately for the modern world Toyota's dream endured. Employing the advertising might of Saatchi and Saatchi the name Lexus was born (they almost named the brand Alexis after the fictional Dallas Character) and the first model (LS400) was conceived; based on heavily on the outlandish Toyota Century this modern slant proved to be a big hit with the motoring press. Leaving 1989 behind lets press on to the launch of the 'RX' model line in 1998
