Information	This Citroen C8 has a great level of equipment

suppléméntaire:	including, stereo with CD, electric windows, mirrors and side doors, auto dimming rear view mirror, power steering, central locking, dual zone digital climate control, alarm, immobiliser and front and side airbags. The bodywork and interior are both in great condition. There are no scratches or dents on the outside and no rips or tears inside. There is a stamped service book with a recent bill for a new turbo and DPF. This is one, well looked after car. It drives really smoothly and offers reliable and economical motoring at a very sensible price. The previous owner, had this car for almost 6 years and that is always a good sign that the vehicle has been reliable. There are six Citroen main dealer service stamps and then the car has been looked after by independent garages. The rear seats can be removed or reconfigured; this is a really practical car
